Dear Kevin:

The experience of the Capital Campaign has humbled me more than you know. I was the skeptic prior to the campaign. However, your convincing manner and professional way of handling an inner city parish helped this wonderful parish to realize the set goal and then some.

I thank you for your guidance and good will throughout the campaign and would not hesitate to recommend you and your company to other parishes. I believe, that because of your expertise and encouragement and because you instilled possibilities in the good workers of the parish, the entire experience was actually exciting and brought about renewed enthusiasm.

Thanks again Kevin. I hope our paths do cross again sometime in the future. Until then,

Sincerely,
